

Portrait Photography by Henry Ford

(Updated August 2, 2019)

A Few Tips:

Background (in order of preference below)

1. White or light-colored wall, or
2. A white or light-colored sheet (freshly ironed), or
3. A blurred background

Clothing

- Avoid Sunglasses or anything that would obstruct the eyes
- Blue, Green, Burgundy and other contrasting colors are preferable/ Avoid white and other flesh tones.
- Solid colors preferred over plaids, stripes, and other “busy” designs.

Posing

- Smiling is good, a “laughing smile” is often better
- Slight [Squinting](#) (a wide eyed look can imply fear)
