Willie Johnson, Communication - Your Blueprint to Greatness

Perhaps one of the most effective ways to enhance achievement lies in your ability to master your relationships with others. This powerful presentation is filled with an abundance of content to help you do exactly that. Willie Johnson brings his years of experience to this presentation and uses his highly engaging human behavior communications model to help you improve your weaknesses and capitalize on your strengths. Your relationships with others will improve tremendously when you use what you learn in this informative session.

Patricia Opong, Using Technology for Empowerment

Individuals who attend this session will be learning about Technology Trends and Skills as well as IT careers and pathways. Patricia Opong will use this powerful and informative session to discuss effective ways to utilize technology as an asset and not as a liability including hands-on activities

Ella Coleman, Vision-Casting for Success

This session will provide a deeper understanding of Vision and its practical application for a more effective life, career, or business. The dynamics of how Vision functions with Purpose and Passion will be clearly explained. How to catch, write, and cast your vision will be covered. Attendees will be guided through the writing of their own vision or enhancing the vision they already have written.

Kent Wise, Discover Your Greatness

The focus of this session reveals the five keys of success and ways in which you can succeed in every aspect of your life. During this riveting and interactive session, you will be inspired to achieve higher levels of success and learn how to turn stumbling blocks of adversity into stepping stones of success. You will be inspired to take immediate action and soar to the top. This session is very hands-on. You are taken through each key and provided with "The Kent Wise Blueprint," a handout designed to help you climb your ladder of success.

Chad McKibben, Action to Maximize

This powerful session provides an opportunity for individuals to learn effectively how to make choices that propel them to higher levels of excellence. Through enhanced awareness, change, improved use of time, a true understanding of intentionality and the concept of nature vs nurture, individuals can move from ordinary to extra-ordinary in their efforts to excel. Chad takes you on a journey that will enable you to get more out of yourself than you ever expected.

Dr. Patricia Wingard Carson, The Source of Greatness for Your Energetic Anatomy

Dr. Patricia Wingard Carson, Energy Medicine Practitioner, introduces participants to their Energetic Anatomy and supplies practical methods to help identify hidden personal energy blocks. Participants will see how to create and optimize positive energy flow while maintaining a healthier energetic balance. Our Energetic Anatomy is as real as our physical anatomy and directly correlates with our 12 primary body systems. This highly informative introductory session takes you on a journey designed to help you capture and maximize the inner you and realize that your biography is your biology. Dr. Wingard Carson provides essential keys to help you take full charge of your life!

Arley Owens, Pathways to Environmental Leadership

Overview of Pathways to Environmental Leadership and showcase how individuals, businesses and organizations profit by becoming Environmental Leaders. During this session you will also learn how Arley's powerful Earth Team Green Eco-Thriller Comic Book Series has positively affected the thinking and behavior of thousands of students towards Mother Earth by teaching them how to protect and respect the environment and each other.

Audrey Wiggins, Don't Get Left Behind. Embrace Technology to Elevate Your Brand

It has been said that we need to be where our clients are. Today, most of them are online. In this session, Audrey Wiggins shows you the power of branding and how to drive traffic to your website to increase and secure business by integrating social and other current media and methods into your Marketing Mix.

iLinda Reese, I Changed my Mind. It's My Prerogative

Presenter, iLinda Reese puts you in the driver's seat by showing you specific ways to harness your inner power to create an alignment of your spirit, soul, mind and body. As a result of this session, Reese will teach you step by step "How-to Unleash" the power pent up inside, confront "the inner voice", clearing the path for growth. You will emerge with strategies to live life on your own terms", knowledge which creates infinite opportunities. Walk away with powerful, workable, proven solutions that are immediately applicable.

Julius Cartwright and James Lawson, Business Strategies - Four Generations of Financial Wellness

Financial Wealth, Trading and Investment Practices. These two astute and savvy leaders combine their expertise. Julius adds important information on college savings, debt reduction, insurance, home ownership, real estate investing, investment clubs and business development, while James provides an important distinction on how investing differs from trading and introduces the concept of cryptocurrencies and the forex market as potential investment practices. Julius Cartwright and James Lawson - let them lead you through the power of a collective conscious mindset as we work together to build a secure financial future.

Michael Jennings, "Vitamins of Success"

Since 2012, Michael has been sharing his formula called "The Vitamins of Success" that has helped him and many others become successful in many aspects of life. In 2015, he biked 3,500 miles across the United State for charity.

Dr. Robert L. Lawson, Destined for Greatness

In this session, Dr. Lawson will focus his attention on seven key empowerment principles designed specifically for helping individuals to become unstuck and move forward from an individual as well as an organizational perspective. This highly interactive session helps conference attendees stay motivated, energized and focuses on those things they most desire to achieve.
